

ZK5000

➔ USB Fingerprint Scanner

Pixel resolution : 512 dpi

Scan capture area : 15 mm (nom. width at center),
20 mm (nom. length)

Reader size (approximate) : 63 x 39 x 91 mm

Scan data : 8-bit grayscale

Communication : USB

Supply Voltage : 5.0V $\pm$ 5% supplied by USB

Operating Temperature : 0°C - 40° C

Operating Humidity : 20% - 80% non-condensing
Temperature, Storage : -10° - 60° C

Humidity, Storage : 20% - 90% non-condensing

Application : Security for PC's and networks,
E-Commerce, Banking and Financial system security

Features :

- ▶ Small form factor
- ▶ Excellent scan quality
- ▶ Encrypted fingerprint data
- ▶ Latent print rejection
- ▶ Counterfeit finger rejection
- ▶ Rotation invariant
- ▶ Rugged
