Corporate Presentation

Enterprise Security Solution for
Visitors | Contract Workers | Materials | Vehicles | Employee Out Pass

July 2014

Ample Trails
www.ampletrails.com
Enterprise Security - The Need

- Diverse & Enhanced security threats - external & internal to industries and organisations, their factories, IT/ITeS development centers, corporate offices etc.
- Concept of automation of security solutions becomes very important.
- Expensive materials / equipment, vehicles and personnel (visitors, contract workers) movement still tracked through antiquated systems
- Operations at security gate / physical entry level usually manual - movement tracking difficult, tedious & time consuming
- Structured method of storing, analyzing & reporting discrepancies in the stored data usually missing
- Automation generally restricted to monitoring of employees’ entry (card-based authentication, CCTV etc.)
The Solution

An end-to-end security solution for effective monitoring and tracking of physical movement of vehicles, goods and people with integration with host of devices.
Entry for visitors into the facility
(Online Approval)
Windows Taskbar System Tray Menu
New Authorization

Security Desktop

Details of new visitor captured. Simultaneously Host’s status and alternate person’s name and status is also displayed

Optional Modules
- Visiting Card Scanner
- Finger Print Scanner
- Group Check-In

Add New Visitor

S. Moses
Name: S. Moses
Type: Supplier
Mobile: 9537458845
E-Mail: s.moses@abblimited.com

Material allowed with Visitor
1. Laptop-DELL-i525
2. Bag-01 Black

View History

The send button will save the details of the visitor and send it to Host

Meeting Information
- Department: Procurement
- Person To Meet: P C Das
- Alternate Person: Dept. Procurement

Visitor Information
- Organization: ABB Limited
- Address: Kharadi, Raja Nagar Industrial Estate, 6th Block, Bhi.
- City: Nask
- Company Phone: 9766787693

Purpose: MARKETING VISIT

Visit Date: 29-Jul-2014 00:11:09 PM
Meeting Location: SGFL Store

July 2014

July 2014
Software Parameters

Material I/O

SMS - GSM & Internet

Visiting Card Scanner

Face Recognition
Summary of Features

**Visitors**
- Capture new visitor data
- Subsequently, use visitor details from the database
- Capture visitor photograph (or use existing in the database), fingerprints, vehicle photograph etc.
- Generate instant passes for visitors with prior appointments
- Online Visitor Authorisation by network protocol or GSM-SMS
- Blacklist visitors, all visitors from a company
- Merge duplicate visitor and company data
- Easy sign-out with barcode reader

**Users**
- Connect your LDAP user list - no need to define or update your users in AGP
- Pre-define default meeting location
- Change your online status - available, busy
- Forward visit request to another staff member
- Define alternate user to handle visitor request “in your absence”
- Create visitor appointments for quick pass generation at the Main gate

**Contract Workers**
- Manage Contractor and Contract worker details
- Allow entry only to authorised contract workers
- Issue time率达ed ID-cards with Photo and barcode to contract workers
- Option to interface biometric device and track entry/exit by fingerprint device
- Safety instruction certificate
- Maintain attendance and work-hours of contract workers
- HR can terminate or extend validity of a contract worker
- Generate statutory reports

**Material IO**
- Define Items
- Define multiple, sequential authorisations for material outward
- Two types of outswards - returnable and non-returnable
- Print bar-coded (optional) material outward gate-pass
- Track inwards against outswards
- Reports - overdue items, Inward/Outward register

**Chat Module**
- Security users can initiate a chat with online staff members and vice-versa

**Email Integration**
- Predefined Email alerts for Visitor arrival, appointments, welcome and departure etc.
- Send email to visitor and host on appointment creation and cancellation
- Visitor over-staying email to host
- “Thanks for your visit” mail to the visitor

**Multi-gate**
- Allocate different Entry, Exit gates
- Enter from any gate exit from any gate
- Allocate specific security users to specific gate
- Synchronize entry and exit

**Multi-site**
- Host a central application server
- Remote sites can access the application server to run a local application
- Single universal database for global MIS
- Remote site application will display local data (local visitors, users)

**SMS-Gateway and GSM Modem**
- Predefined SMS Templates for Authorisation, appointment, welcome & departure messages.
- Visitor authorisation by SMS (using GSM modem)
- Send Appointment Creation message
- Send Appointment cancellation message
- Send “Thanks for your visit” message to the visitor

**Tenants**
- Allows single security for multiple Tenants
- Can be used in buildings and complexes having multiple organisations
- Can be used in Residential and housing establishments

**Useful Utilities**
- Merge duplicate companies (e.g. SBI, State Bank of India)
- Merge duplicate visitors (e.g. S. B. Singh, Satyadev B. Singh)
- Blacklist visitor or visitor company
- SMS sending utility (security to users)
- Inactive users (not shown in active user list)
- Import master data
Gatepass - Modules

- Bar-coded Gate Pass for auto-exit
- Group Check-In
- AD Integration
- Multi gate operations
- Multi Site Operations
- Pre-approved visitors - Appointment Module (Client server and Web Based)
- Contractor Worker Entry/Exit
- Vehicle In/out entry tracking
- Material In/Out entry for returnable and non-returnable items
- Visiting card scanner
- SMS Module for Visitor-arrival-intimation and authorization (GSM & SMS Gateway)
- Face Recognition Module
- Finger Print Module
- Digital Signature pad integration
- Tenants’ Visitors functionality
- Employees Out Gatepass requisitions and approval workflow

July 2014
